HISTORY

63

PROUD JOURNEY
Promises are made to be kept, and Isuzu's past, present and future, bear testimony to this adage.

64

1964 saw the 1st Isuzu truck arriving in South Africa

72

Isuzu's proud journey began back in 1972, which saw the first Isuzu KB 2.0 litre petrol models imported. By the end of that year, African production of the 1st generation Isuzu Pick-up had begun.

97

IN 1997 ISUZU JOINED OPERATION RACHEL,
the first of two crime-stopping initiatives of which the goal was to find and destroy illegal arms caches, firstly in Mozambique and then 10 years later, as Operation Mandume, in Angola and Northern Namibia.

Dependable 4X4s were desperately needed, and Isuzu came to the rescue, supplying a fleet of their – by now legendary – Pick-ups.

07

Isuzu Trucks' payoff line changed from "Trucks for life" to "For the long run".

09

The first Isuzu Hybrid Truck is tested.

10

National launch of the F-Series range.

10

In 2010, Isuzu bakkies continued to prove their worth, rewriting numerous South African speed and distance records at the

72-HOUR ENDURANCE CHALLENGE.

13

First year with sales topping 4 000 units.

The Kempston Road assembly plant underwent refurbishment and restructuring.

ITSA takes the Nr. 1 spot as top Japanese OEM in South Africa.

15

The 6th generation of the Isuzu Pick-up was launched in 2013 and 2015's updates witness the next leg in

ISUZU'S QUEST FOR THE PERFECT BAKKIE.

15

30 000 trucks assembled at the plant since 2007 in South Africa.

Isuzu Motors launches the much anticipated **Isuzu mu-X!**

EXCITING TIMES AHEAD INDEED.

ADVENTURE

Introducing the 7-seat **Isuzu mu-X.** The latest in modern Sport Utility Vehicles (SUV), backed by Isuzu's power, technology and superior fuel economy.

The **mu-X** breathes versatility and encourages you to explore your own trails instead of following the ones that came before. From navigating through peak-hour traffic on the weekday school run to a spontaneous off-road adventure, this SUV can do it all. Enjoy passenger car-like comfort, but with the robust strength of a body-on-frame configuration powered by one of the world's most trusted diesel engines.

ISUZU

A SOLID FOUNDATION

The driving force behind great adventures

Isuzu has been a driving force since 1916, with the longest history of any Japanese vehicle manufacturer and also the largest commercial diesel engine producer. Over 25 million engines have been built to date – all delivering superior performance, exceptional fuel economy with the unrivalled spirit of Isuzu engrained in its DNA.

Isuzu's latest masterpiece is the **mu-X** – a full size 7-seater SUV trusted by modern families everywhere to get them where they need to go. Engineered to traverse the toughest of terrains, gracing the landscapes of Africa with presence and power.

The **Isuzu mu-X** has a proven, proud history of performance behind it and an even longer road ahead filled with adventure.

FORWARD IN TIME

A

B

C

Look forward to luxury

Easily identifiable by its bold and robust appearance, the **Isuzu mu-X** knows how to command its path. Sophisticated city style matched with a bold off-road stance, the **mu-X** turns heads for all the right reasons.

Whether your rendezvous is on the red carpet or off the beaten track, the **mu-X** is at home in any setting or terrain.

The **mu-X** effortlessly blurs the boundaries between the city and the bush – providing you and your family with an endless choice of exciting destinations.

A *18" alloy wheels come standard, showing any ground beneath it what it's made of.*

B *Striking LED Daytime Running Lights (DRLs) and Bi-LED projector headlights with auto-levelling functionality, lights the way towards a brighter driving future.*

C *Ultra-bright LED taillights keep your **mu-X** easily visible at any time of the day or night.*

ISUZU

ISUZU
ISUZU

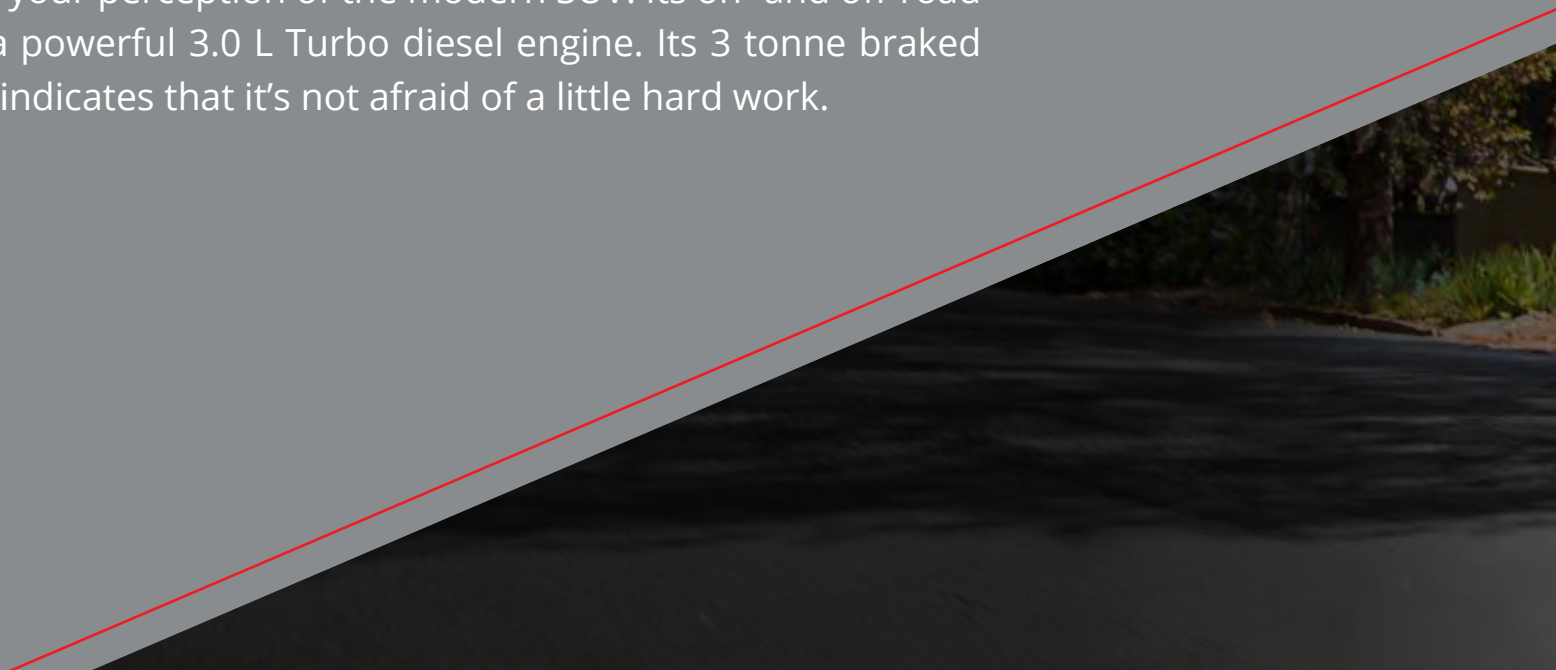
PERFORMANCE UNDER PRESSURE

A force to be reckoned with

The **Isuzu mu-X** is here to shift your perception of the modern SUV. Its on- and off-road performance is reinforced by a powerful 3.0 L Turbo diesel engine. Its 3 tonne braked towing across the entire range indicates that it's not afraid of a little hard work.



ISUZU
ISUZU

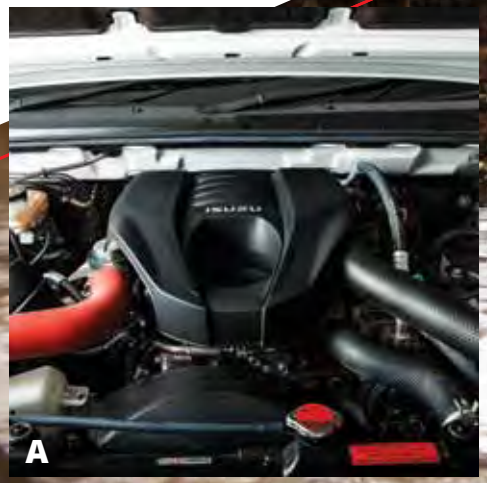
Delivering 130 kW of power and 380 Nm of torque, the high-pressure common rail fuel injection system makes the most of every drop of fuel, and the intercooled Variable Geometry System (VGS) turbocharger provides excellent response over the engine's entire rev range. Proven in a series of testing environments, each component of the Euro5-compliant Isuzu diesel engine has been crafted to reduce maintenance costs and increase durability, ensuring years of trouble-free motoring.

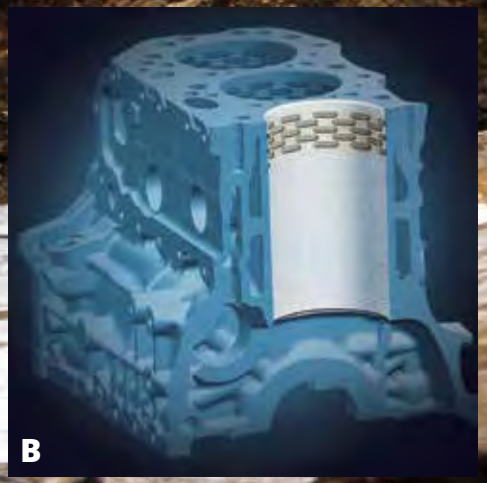
The **mu-X** is paired with a silky smooth 6-speed transmission, leaving you in control of your every move. Available in 4X2 and 4X4, this powertrain delivers:

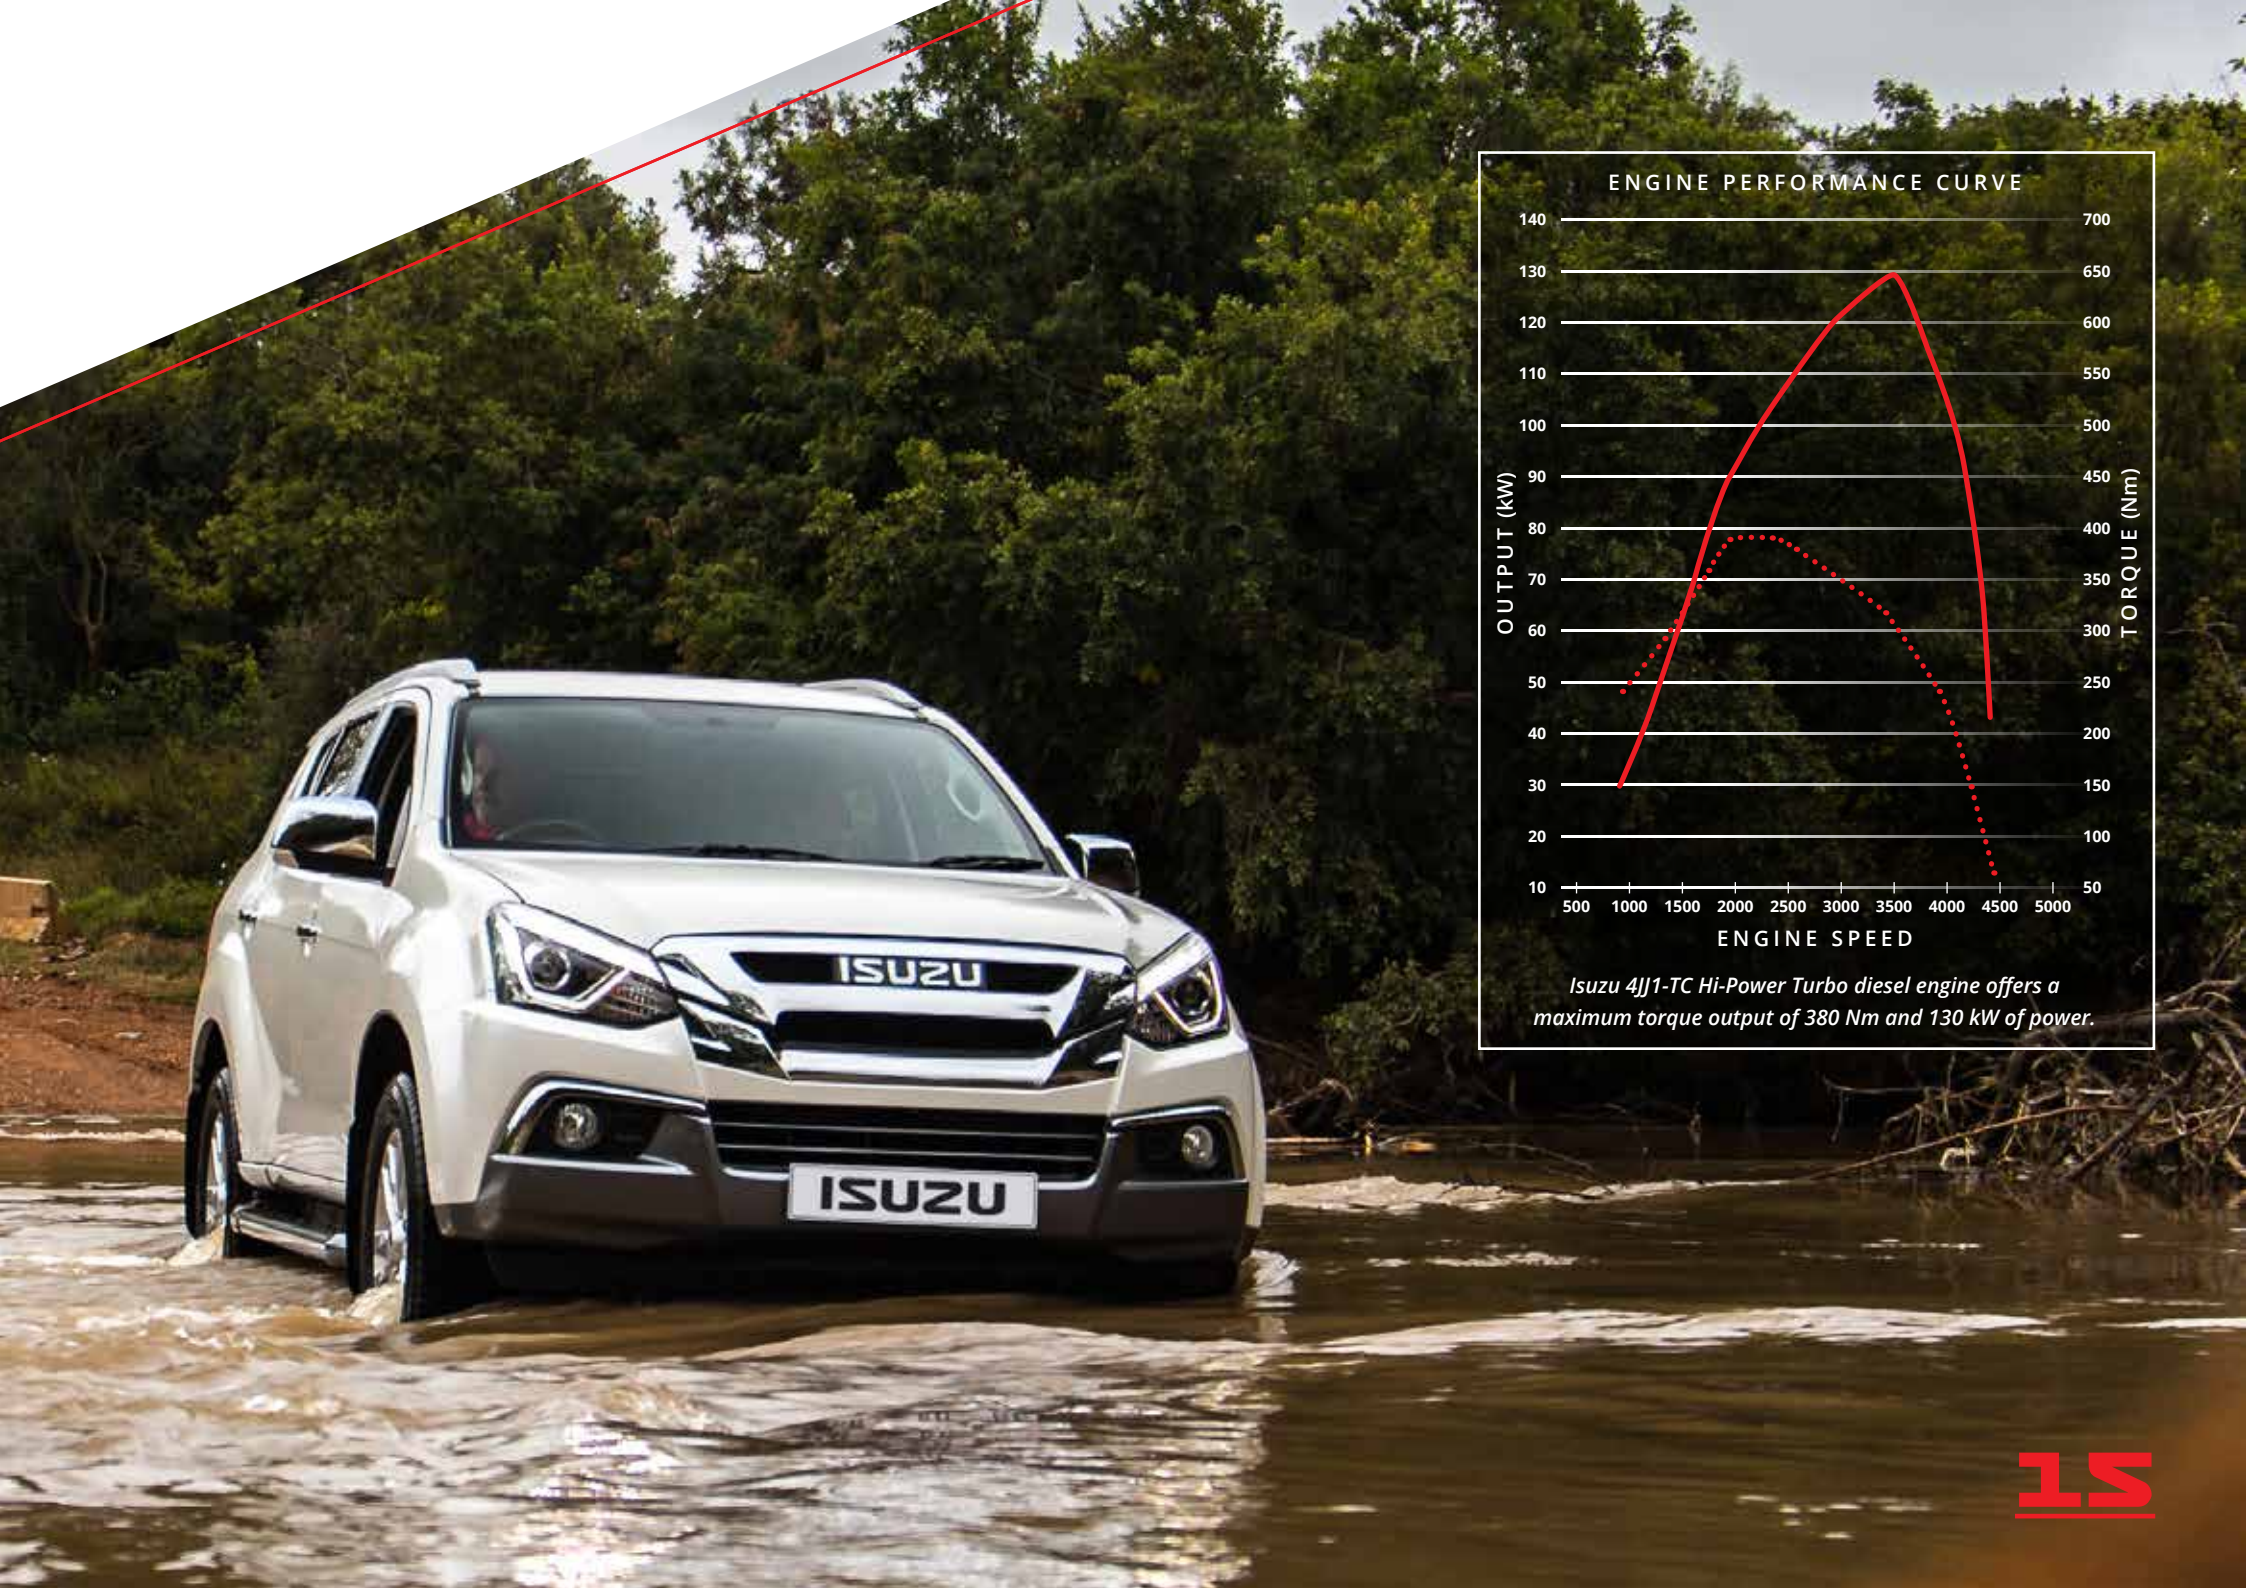
A *Famous for its durability, reliability and fuel economy, the Isuzu 3.0 L Turbo diesel engine provides abundant power and torque to make light work of any load.*

B *Melt-inliner and low compression pistons with Teflon coating enable increased fuel economy and engine durability, meaning lower maintenance costs and increased engine life.*

C *High-pressure common rail fuel injection system minimises the amount of fuel needed in the combustion process, providing superior fuel economy.*







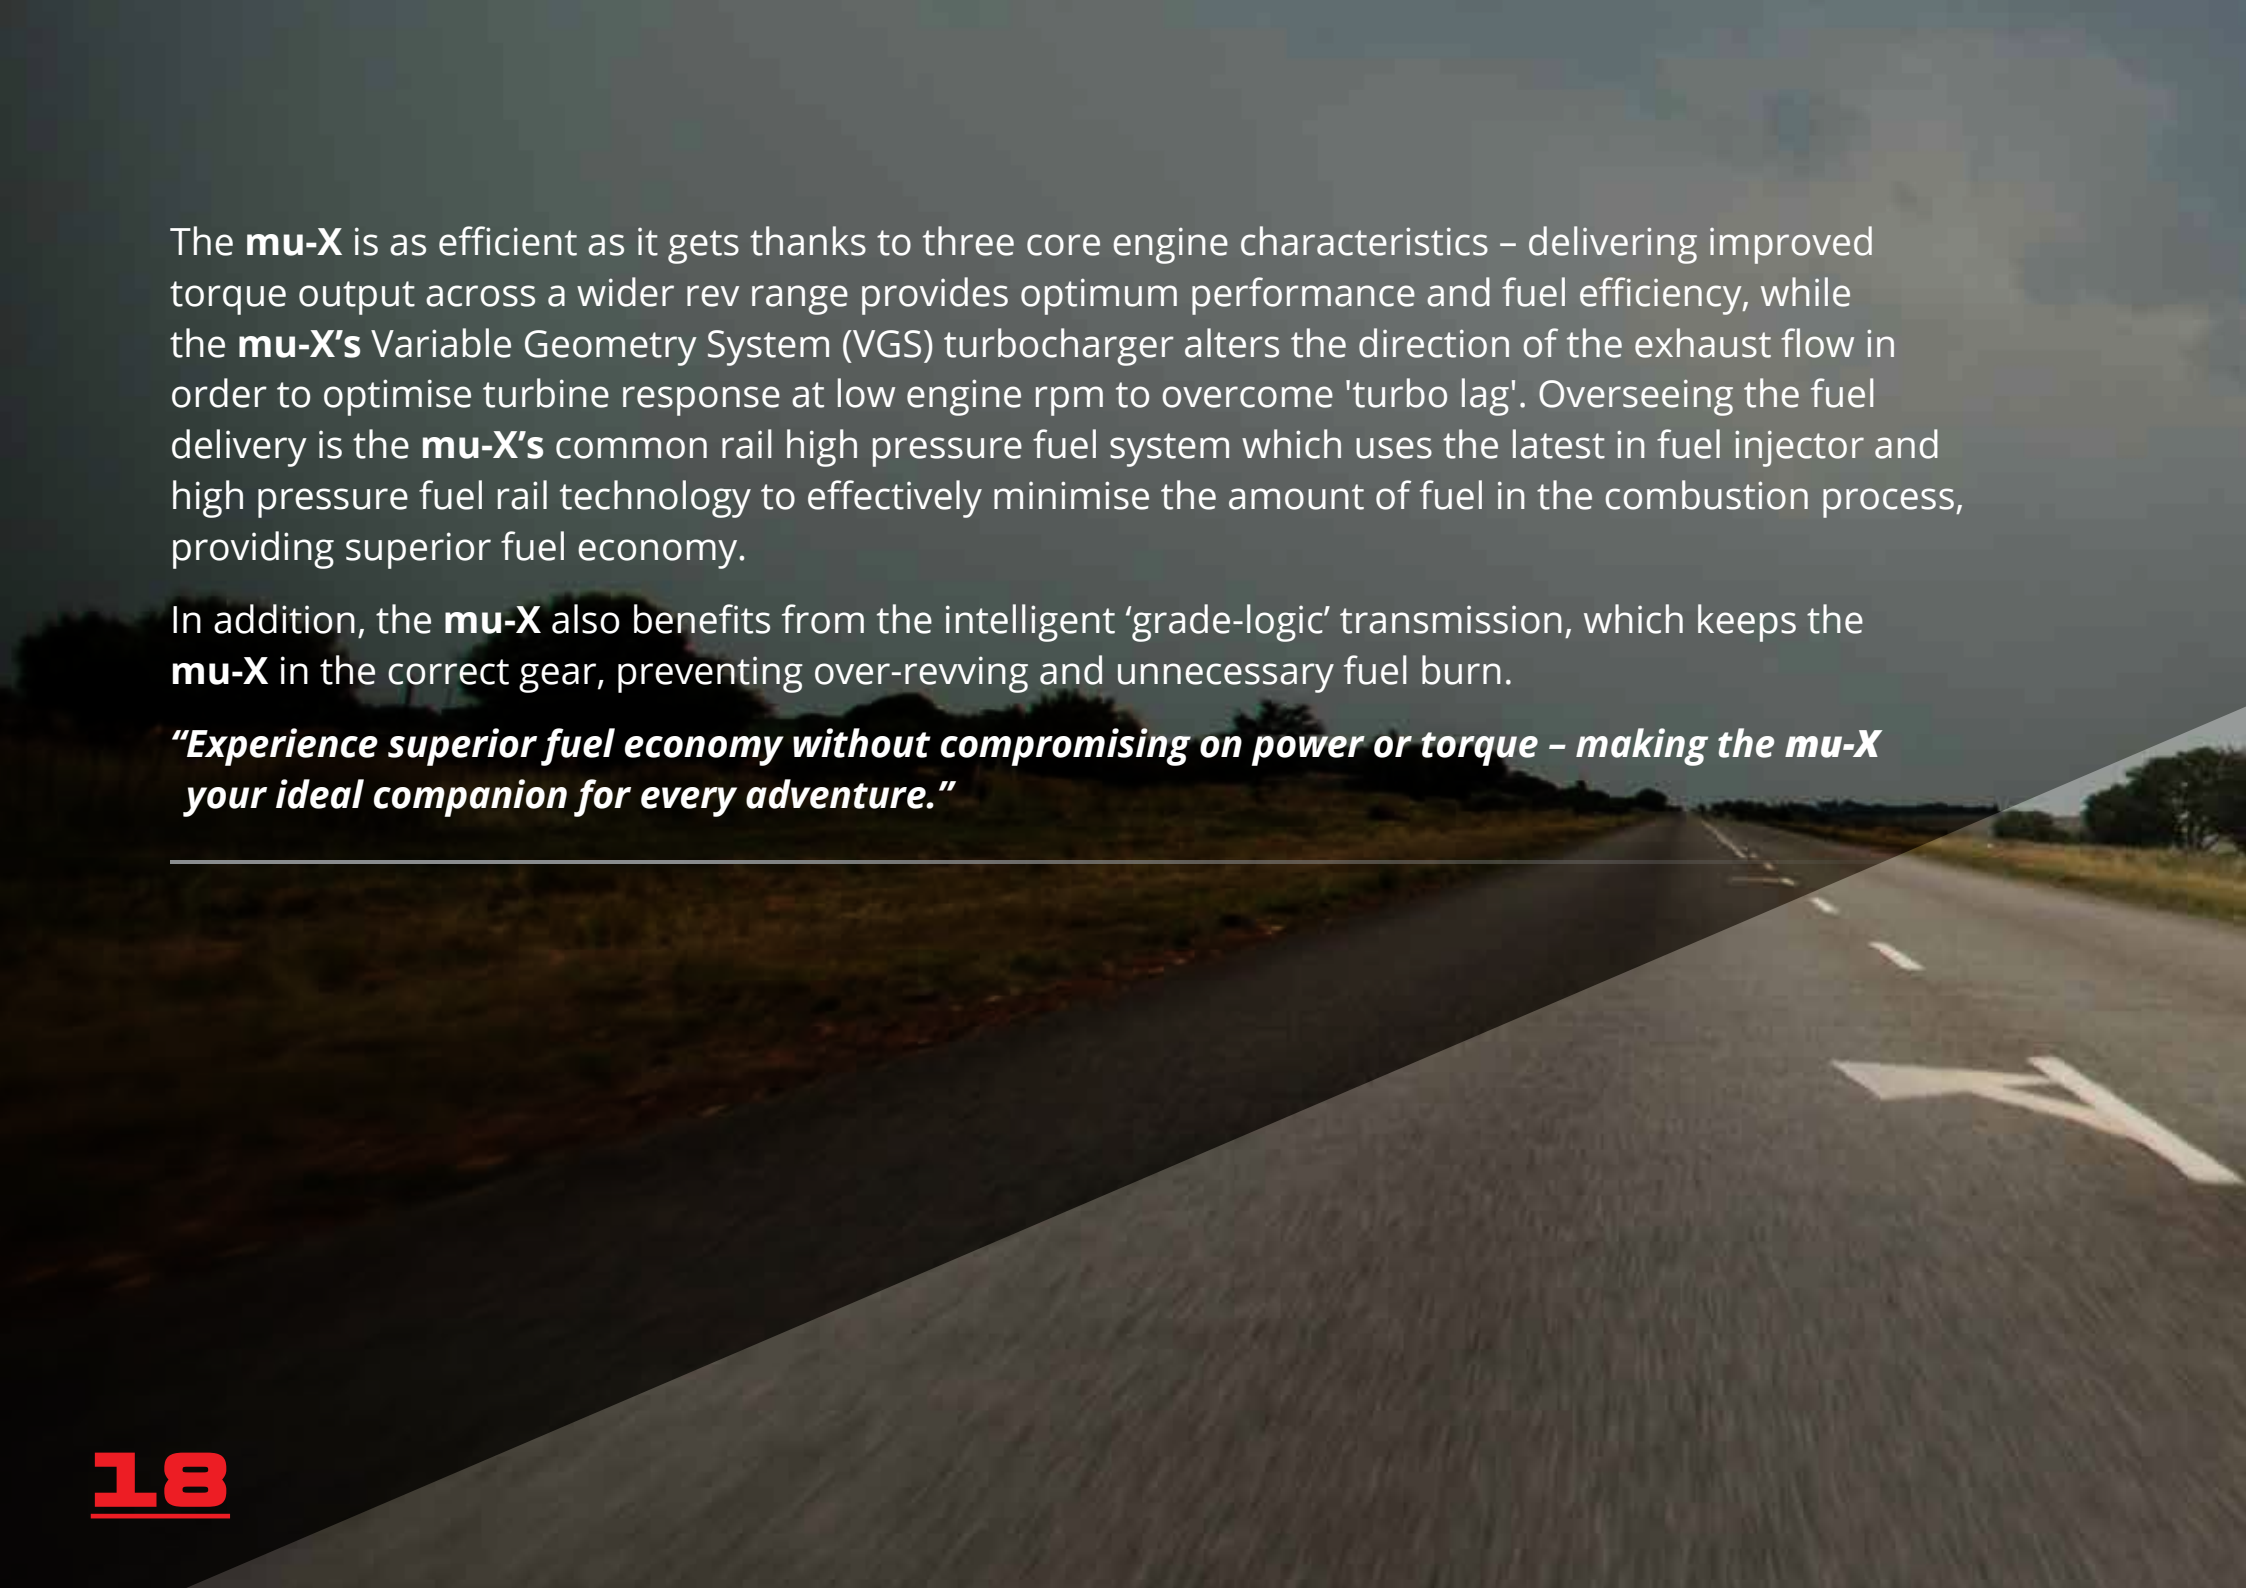
ENGINE PERFORMANCE CURVE

Isuzu 4JJ1-TC Hi-Power Turbo diesel engine offers a maximum torque output of 380 Nm and 130 kW of power.

EFFICIENT FROM EVERY ANGLE

Class-leading cost of operation or ownership

From one of the world's leading manufacturers of diesel engine technology, the impressive 3.0 L Turbo diesel engine that powers the **Isuzu mu-X** is as frugal as it is athletic. Delivering plenty of power and torque, this stirring power-plant produces amazing fuel economy from just 7.9 litres per 100 km – which means less time filling up and more money in your pocket to spend on your next adventure.



The **mu-X** is as efficient as it gets thanks to three core engine characteristics – delivering improved torque output across a wider rev range provides optimum performance and fuel efficiency, while the **mu-X's** Variable Geometry System (VGS) turbocharger alters the direction of the exhaust flow in order to optimise turbine response at low engine rpm to overcome 'turbo lag'. Overseeing the fuel delivery is the **mu-X's** common rail high pressure fuel system which uses the latest in fuel injector and high pressure fuel rail technology to effectively minimise the amount of fuel in the combustion process, providing superior fuel economy.

In addition, the **mu-X** also benefits from the intelligent 'grade-logic' transmission, which keeps the **mu-X** in the correct gear, preventing over-revving and unnecessary fuel burn.

"Experience superior fuel economy without compromising on power or torque – making the mu-X your ideal companion for every adventure."

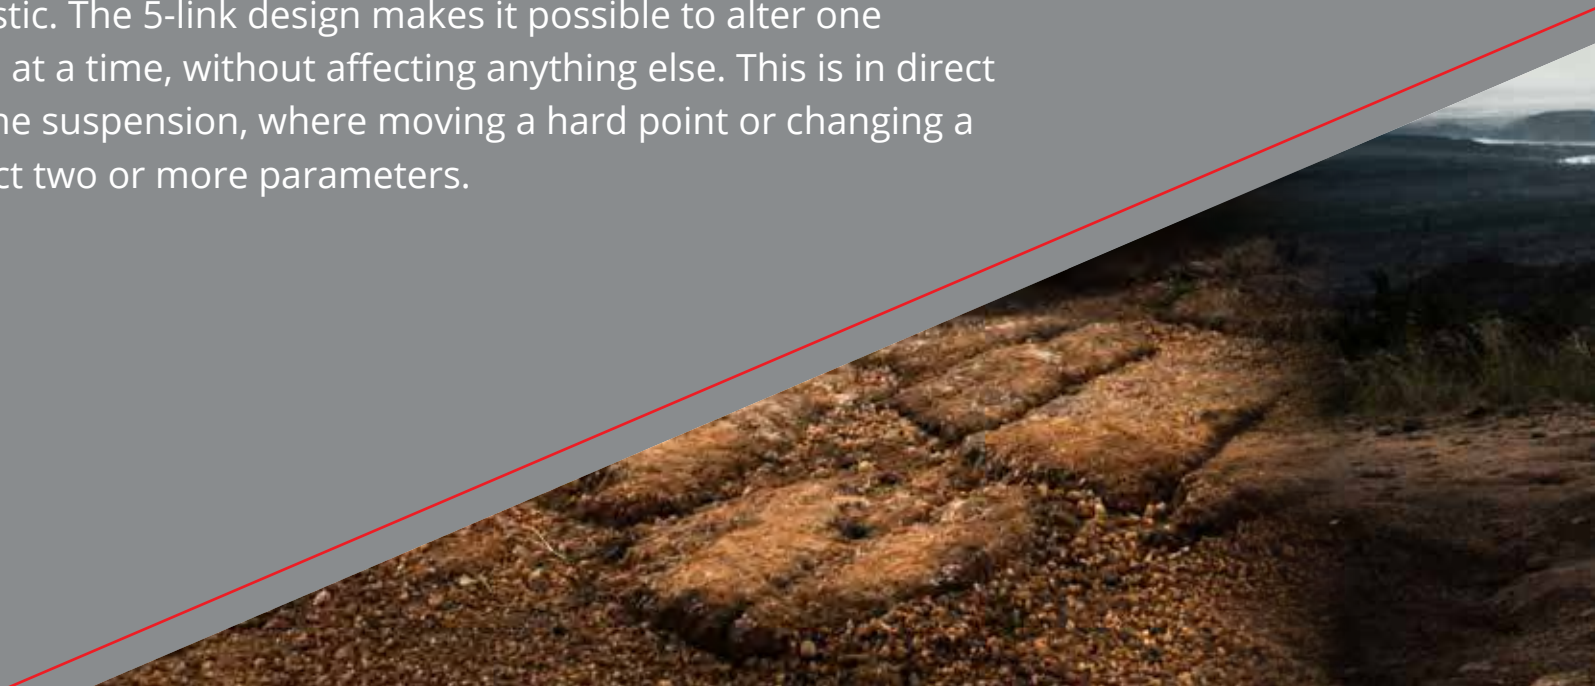
ISUZU
ISUZU

SWITCHED ON OFF-ROAD

Four-wheel-drive command at your fingertips

Leaving your comfort zone will become second nature when you drive an **Isuzu mu-X** as it's fitted with off-road protection systems for added driver control and safety.

The independent 5-link rear suspension is a primary enabler to the **mu-X's** exceptional ride and handling characteristic. The 5-link design makes it possible to alter one parameter in the suspension at a time, without affecting anything else. This is in direct contrast to a double-wishbone suspension, where moving a hard point or changing a bushing compliance will affect two or more parameters.



ISUZU
ISUZU

ISUZU

Taking on the terrain has never been more exciting and achievable with the 'Terrain Command' 4WD select dial (2WD-high and 4WD-low) at your fingertips.

The automatic transmission will also engage the Uphill / Downhill Transmission Control System automatically.

Every 4X4 **mu-X** is fitted with the rugged off-road protection you need when roughing it. There's a front steel plate skid/splash shield, as well as steel plate guards to protect the sump and transfer case.

For added driver control and safety, the Hill-Start Assist is automatically engaged by the electronic brake control to prevent rolling back when starting the engine on steep gradients (above 5.7 degrees). Hill Descent Control (HDC) which works in forward or reverse, will give you maximum confidence to tackle downhill terrain, providing maximum traction when activated.

You can expect superior stability and an intelligent Traction Control System (TCS) with Electronic Stability Control (ESC). You'll find that off-road obstacles almost become obsolete with ample ground clearance to play with.

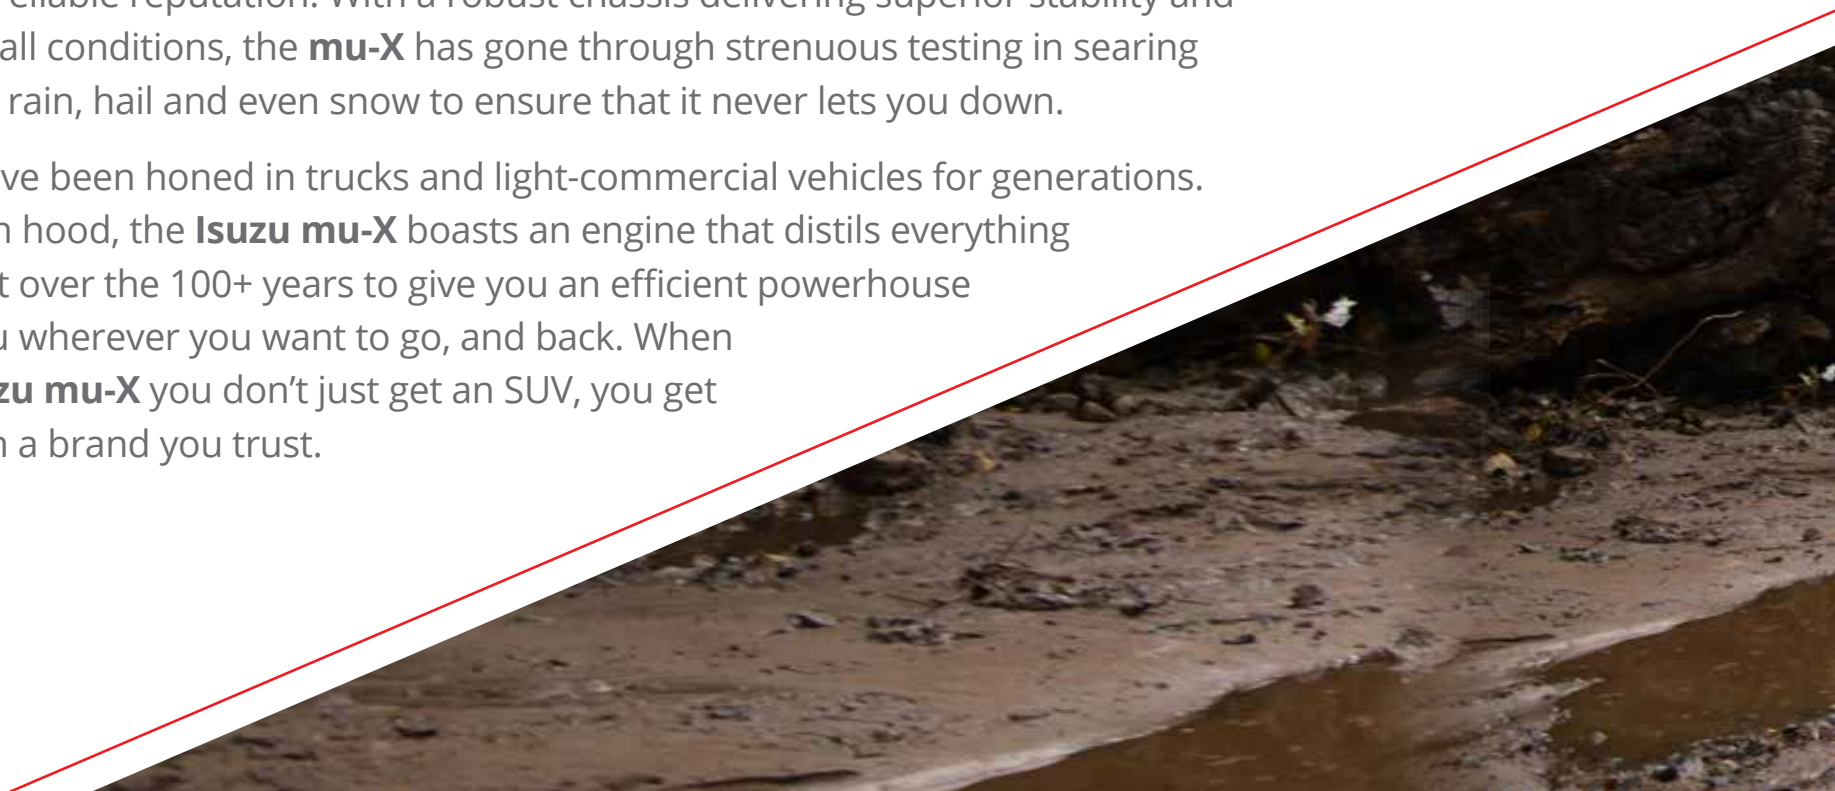
GEARED TO GO!

Over a century of hardworking DNA

Beneath the plush comfort of the **Isuzu mu-X**, you will find the same DNA that delivers our tough and reliable reputation. With a robust chassis delivering superior stability and roadholding in all conditions, the **mu-X** has gone through strenuous testing in searing heat, monsoon rain, hail and even snow to ensure that it never lets you down.

Our engines have been honed in trucks and light-commercial vehicles for generations. Under its stylish hood, the **Isuzu mu-X** boasts an engine that distils everything Isuzu has learnt over the 100+ years to give you an efficient powerhouse that will get you wherever you want to go, and back. When you buy an **Isuzu mu-X** you don't just get an SUV, you get adventure from a brand you trust.



ISUZU
ISUZU

COMFORT ON COMMAND

A relaxing ride in any seat

Cloaked behind the sleek interior lines of the **Isuzu mu-X** lies a smartly designed and comfortably spacious interior. The versatile second- and third-row seats mean that you'll always be able to find a way to accommodate your passengers and anything else you need to take with you, without compromising on space and comfort. Wide door arches make access for all passengers a breeze, while the side-steps not only enhance the tough exterior look of the **mu-X,** it also makes it easier for occupants to get in and out of the vehicle. When exploring your sense of adventure off-road, there's strategically placed assist-grips to help keep you grounded.

ISUZU
mu-X

A

B

C

With French-stitched leather seats as standard, you and your passengers can relax in comfort – even if you're roughing it in the most remote parts of the country. A seat design with 'wrap-around' bolsters provides increased shoulder, back and base support – delivering more comfort for occupants. Experience ultimate driving luxury with a 6-way adjustable electric driver seat. Whether you're driving, or just go along for the ride, you'll always find a comfortable and spacious seat in your **Isuzu mu-X**.

A *Indulge in the deluxe comfort of soft leather seats with fine French stitching.*

B *Extra leg room and space give comfort to the second-row seats.*

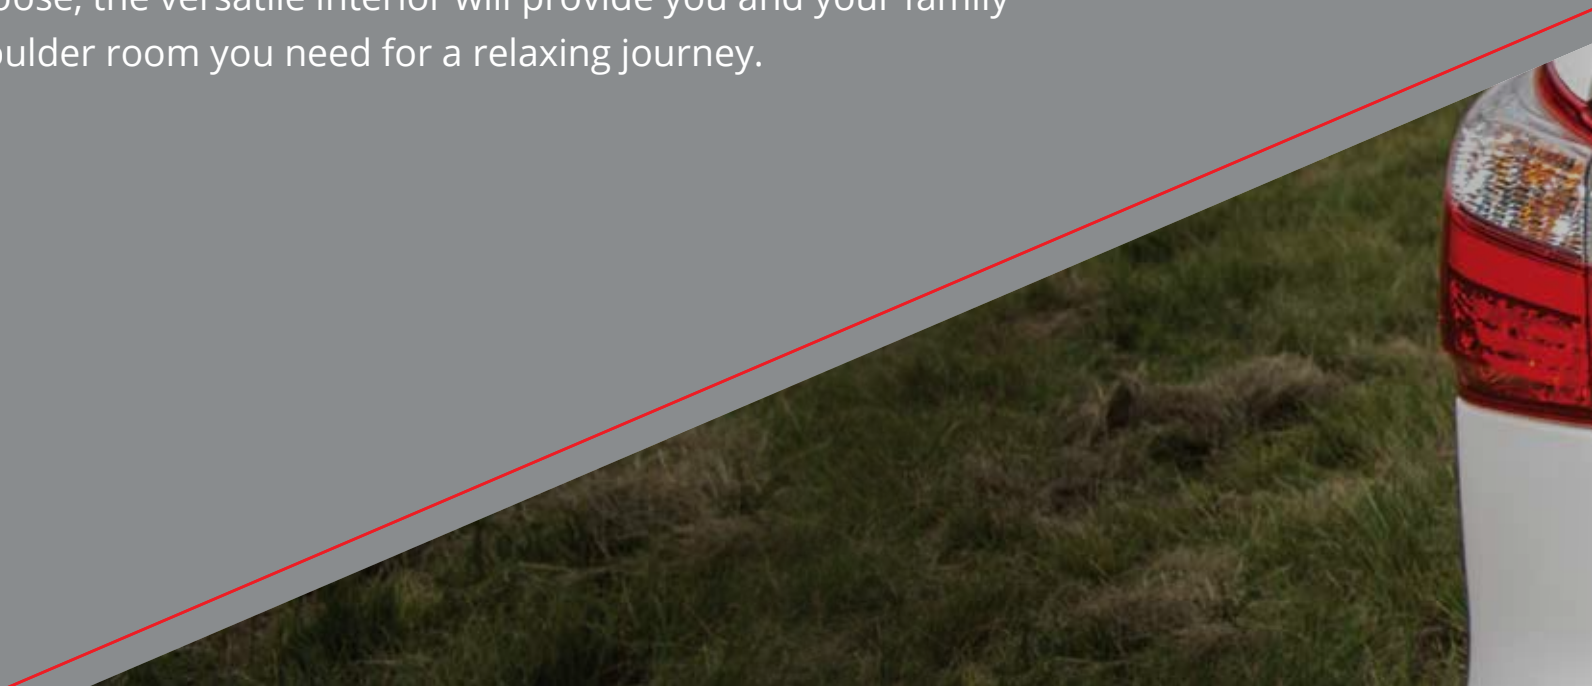
C *6-way electric driver seat allows you to conveniently find your most comfortable driving position at the touch of a button.*

ISUZU

MORE ROOM TO ROAM

Interior space and comfort

The interior of every **Isuzu mu-X** is extremely versatile, but also extremely comfortable. There's room for you and a team of six to travel safely, securely and in comfort. Clever split/fold rear seats in both the second and third rows mean that no matter what seating configuration you choose, the versatile interior will provide you and your family with all the head, leg and shoulder room you need for a relaxing journey.



AUTO

In addition to lounging space, there's also a practical side to the **mu-X's** interior. There's an abundance of clever storage compartments, and with the second- and third-row seats' ability to fold down, there's also a generous cargo area when you have a sizeable load to carry. You'll never need to look for another cupholder again, because our design engineers have managed to include 12 of them for whenever you need a refreshment at hand.

A *Second- and third-row seats fold flat to allow for maximum load space.*

B *The 40/60-split second-row seats' split design allows for large load space and 3 occupants.*

C *Third-row seats fold flat to provide extra load space.*

SUPERIOR TECHNOLOGY, UNRIVALLED CONVENIENCE

All the mod cons

While you're having fun behind the wheel, the **Isuzu mu-X** has also been designed to keep your family entertained.

ISUZU
With you, for the long run

A reverse-view camera comes standard on all **mu-X** models, along with touchscreen displays. An 8-speaker audio system with iPod and Bluetooth phone connectivity and audio streaming is standard across the **mu-X** range. All models feature two Sky Sound roof-mounted speakers that provide the ultimate audio experience for all passengers. Embedded touchscreen SatNav ensures you find your destination with ease. The Passive Entry and Start System on the **mu-X** provides convenient cabin access and keyless start operation, making your getaway quick and easy.

With the **mu-X**, both you and your passengers will experience comfort and convenience no matter how long your drive.

A *Get from A to B, wherever you may be, with built-in SatNav.*

B *Back up with confidence, with reverse-view camera.*

C *Passive Entry and Start System provides keyless locking and unlocking as well as an engine start/stop button.*

BOLD FUNCTIONALITY

The **mu-X** wouldn't be complete without functional features that make this SUV a pleasure to drive and be admired for. Exterior features like side-steps, a rear spoiler, 18" alloy wheels boost your driving experience. Large, fold-away mirrors with LED indicators, underbody protection with steel sump and transfer case guard for extra protection are incorporated to protect you on wilder trails.

Inside the **mu-X** you'll experience cutting edge technology with an 9" Multi-Function Display (MFD), and finishing touches like a leather steering wheel with integrated audio controls and cruise control, put convenience at your fingertips.

Rediscover true connection and remain clued up on the latest technology this modern SUV has to offer. The **mu-X** features a full infotainment package: MP3 and CD capability, Bluetooth® connectivity, DAB Radio, Apple Carplay™, Android Auto™, front and rear USB ports, AUX input, iPod connections and an HDMI port. The infotainment system also features Sky Sound – Sky Sound consists of eight speakers mounted on the front dash, front and rear doors, as well as on the roof.

You can rely on Satellite Navigation displayed on a 9" Multi-Colour Touchscreen to guide you around unfamiliar places while you're on the road to discovery. If the going gets tough, activate the 4WD Terrain Command to ease things up.

Experience adventure on your own terms, as the **mu-X** caters to your individual needs with electronic Climate Control and Up / Down Window Control with Jam Protection.

ISUZU

SAFETY FIRST

You know you're driving one of the safest SUVs around.

The entire body is designed to be a high-tensile steel passenger safety cell. The side-intrusion bars and comprehensive crash avoidance electronics all attribute to the overall safety.

A reverse-view camera is installed to help avoid tricky spots and act as your extra pair of eyes at any given moment.

Contributing to your safety is a 4-channel, 4-sensor Anti-Skid Brake System with Electronic Brakeforce Distribution (EBD), Emergency Brake-Assist (EBA) as well as Electronic Stability Control (ESC) with Hill-Start Assist (HSA), Hill Descent Control (HDC) and the Traction Control System.

Additional protection and peace of mind is provided with the optional rear park-assist audible sensors, 6 airbags (dual front, side and full-length curtain) increase your protection from every angle inside the SUV.

Externally, the **mu-X** has an impact absorption bonnet and a large chassis rail cross-section, providing effective energy absorption in the event of impact – increasing both vehicle and pedestrian protection.

ISUZU

PEACE OF MIND

The **Isuzu mu-X** comes with the Isuzu Care Package that provides you with a 3 years / 100 000 km Warranty – proving that this vehicle is supported in more ways than one.

ISUZU

With you, for the long run
